Note for:

Subject : Partitions for The NHB

Ref : MFR 7 January 1988, Subject: CH Partitions for NHB

STAT

My latest follow-up with today reveals only that she is awaiting word from Art Carlucci regarding the difference in price negotiated thru Centex for the partition installation and the quote from Mike Kavounis, KOFCO. Until such time as there is firm data for Contracts to work with, my hands are tied -- but I will stay on it until something is resolved and I can proceed with a 2420.

NEW SUBJECT: Regarding my note of 15 January about the ^{Signature}~~partitions~~ for NHB -- you should by now have two 2420's that I drafted for your signature -- one for the storage and one for the insurance involved. Sorry that I didn't get the information on the partitions before it got to you -- so that I could have prepared the documentation first. But sometimes it seems no matter how I beseech people to give me timely information, they leave me dangling. Same thing happened with the information regarding the coathooks that NBPO had purchased for the NHB!
